

I have enjoyed not being hounded by unsolicited telemarketers and every other idiot who thinks "they have a great DEAL for me". I do pay for caller id to eliminate the other calls Indiana does allow to bother me in the privacy of my own home. I do not think Indiana's Do Not Call List goes far enough. I am bombarded by commercials on TV, billboards, radio, magazines, newspapers, etc. I need to have a telephone and I pay for the phone. It is not like optional magazines and newspapers which I have stopped purchasing. I have stopped watching network TV due to so many commercials. These items are not required in my life and are not as obtrusive as a phone call. I hope and pray my right to MY quiet time is not revoked. Please leave Indiana's No Call List alone.
